## Cell Line Karyotype Report

<b>Name</b>	<b>BMAC ALICE P31+2</b>
<b>Result</b>	<b>46,XY[30]</b> <b>BCL2L1: No evidence of duplication</b>

### Comments:

Male karyotype. No abnormality detected. (30 cells examined, 95% chance of detecting a 10% population).

FISH analysis of 100 interphases has shown no evidence of duplication of *BCL2L1*.

If you require any further information on these results, please do not hesitate to contact the undersigned.
