The following standard testing criteria have been determined within CGaP, prior to release of this product:

| Test                                   | Assay   | Result                               |
|--|---|--------------------------------------|
| Confirmed Sterility PCR for Mycoplasma |   | Pass                                 |
| Cell Line Identity                     | Fluidigm  | Pass                                 |
| Viability post-thaw                    | Growth to confluence post-thaw                          | Pass                                 |
| Morphology                             | Continuous visual assessment of iPSC colony morphology. | Pass                                 |
| Stem Cell Marker Expression            | Il Marker Expression Pluri test                         |                                      |
| Clearance of Reprogramming<br>Factors  | rtPCR analysis  | Fail - Positive for Sendai<br>Vector |

| *These Cell lines were cultured in media containing Pen/Strep. |        |                    |      |           |  |  |
