CERTIFICATE

This is to certify that the **human induced pluripotent stem cell line (CIRMi281-A)** has been registered in the European Human Pluripotent Stem Cell Registry (hPSCreg®):
<https://hpscrag.eu/cell-line/CIRMi281-A>

| | |
|--|---|
| Type of cell line | Human induced pluripotent stem cell |
| hPSCreg® ID | CIRMi281-A |
| Other name(s) | CW70017 |
| Generating institution | California Institute for Regenerative Medicine |
| Derivation country | United States |
| Associated disease | Type 2 Diabetes Mellitus |
| Evidence of pluripotency | Yes |
| Evidence for ethical provenance provided | Yes |

The registered information provides evidence that:

- the ethical provenance of the above mentioned cell line has been established and complies to the rules set by the European Commission for funding of research with human pluripotent stem cells.
- the donation of biological material was not influenced by undue pressure.
