# CERTIFICATE

This is to certify that the **human induced pluripotent stem cell line (CIRMi421-A)** has been registered in the European Human Pluripotent Stem Cell Registry (hPSCreg<sup>®</sup>):  
<https://hpscrag.eu/cell-line/CIRMi421-A>

Type of cell line  
hPSCreg<sup>®</sup> ID  
Other name(s)  
Generating institution

Human induced pluripotent stem cell  
CIRMi421-A  
CW70211  
California Institute for Regenerative  
Medicine

Derivation country  
Associated disease  
Evidence of pluripotency  
Evidence for ethical provenance provided

United States  
Diabetic Retinopathy  
Yes  
Yes

## The registered information provides evidence that:

- the ethical provenance of the above mentioned cell line has been established and complies to the rules set by the European Commission for funding of research with human pluripotent stem cells.
- the donation of biological material was not influenced by undue pressure.
