CERTIFICATE

This is to certify that the **human embryonic stem cell line (W Ae009-A)** has been registered in the European Human Pluripotent Stem Cell Registry (hPSCreg®):
<https://hpscrag.eu/cell-line/W Ae009-A>

Type of cell line
hPSCreg® ID
Other name(s)
Generating institution

Human embryonic stem cell
W Ae009-A
WA09, H9
WiCell Research Institute - National
Stem Cell Bank
United States
1998-01-01
No
Yes
Yes

Derivation country
Derivation date
Associated disease

Evidence of pluripotency
Evidence for ethical provenance provided

The registered information provides evidence that:

- the ethical provenance of the above mentioned cell line has been established and complies to the rules set by the European Commission for funding of research with human pluripotent stem cells.
- the donation of biological material was not influenced by undue pressure.
