CERTIFICATE

This is to certify that the **human induced pluripotent stem cell line (TMOi001-A)** has been registered in the European Human Pluripotent Stem Cell Registry (hPSCreg®):
<https://hpscereg.eu/cell-line/TMOi001-A>

Type of cell line

hPSCreg® ID

Other name(s)

Generating institution

Derivation country

Associated disease

Evidence of pluripotency

Evidence for ethical provenance provided

Human induced pluripotent stem cell

TMOi001-A

Gibco Episomal iPSC Line; A18945

Johns Hopkins University

United States

No

Yes

Yes

The registered information provides evidence that:

- the ethical provenance of the above mentioned cell line has been established and complies to the rules set by the European Commission for funding of research with human pluripotent stem cells.
- the donation of biological material was not influenced by undue pressure.
