

Hoechst

This image shows a dense population of cells stained with Hoechst, which highlights the nuclei in blue. The cells are arranged in a somewhat organized, grid-like pattern. A white scale bar is visible in the bottom right corner.

NANOG

This image shows the same population of cells stained with NANOG, which highlights the nuclei in green. The distribution and arrangement of the cells are consistent with the Hoechst-stained image. A white scale bar is visible in the bottom right corner.
