

## Certificate

This is to certify that the **human embryonic stem cell line (WIBRe001-A-1)** has been registered in the European Human Pluripotent Stem Cell Registry (hPSCreg):

<http://hpscrag.eu/cell-line/WIBRe001-A-1>

<input type="checkbox"/> Type cell line	:	Human embryonic stem cell
<input type="checkbox"/> hPSCreg name	:	WIBRe001-A-1
<input type="checkbox"/> Other name	:	WIBR3 Oct4-deltaPE-GFP
<input type="checkbox"/> Provider	:	Whitehead Institute for Biomedical Research
<input type="checkbox"/> Country	:	USA
<input type="checkbox"/> Derivation date	:	2008-11-17
<input type="checkbox"/> Evidence of Pluripotency	:	Yes
<input type="checkbox"/> Disease	:	No
<input type="checkbox"/> NIH Registration Approval Number	:	

The registered information provides evidence that:

- The line has been derived with full informed consent of the donor
- No undue inducement has been provided for donation
- The embryo was not generated solely for research purposes

The Registry confirms that line WIBRe001-A-1 complies to the rules set by the European Commission for funding of research with human embryonic stem cells.

Date 05.12.2016  
Andreas Kurtz
